

## SEAFOOD ROADMAP:

Scope: Fish and fish material. Includes finfish, crustaceans, cephalopods, echinoderms, molluscs and gastropods

## SEAFOOD LEGISLATION

### General guidance

A guide on the [Animal Products Act 1999](#), and the [Food Act 2014](#)

### OTHER INFO:

[FORMS](#)  
[REGISTER & LISTS](#)  
[SCIENCE & RISK](#)  
[ORGANICS](#)

### OTHER ACTS

[Commerce Act 1986](#)  
[Consumer Guarantees Act 1993](#)  
[Fair Trading Act 1986](#)  
[Hazardous Substances and New Organisms Act 1996](#)  
[Resource Management Act 1991](#)  
[Health and Safety in Employment Act 1992](#)

### [Food Act 2014<sup>1</sup>](#)

The purpose of this Act is to—

- (a) restate and reform the law relating to how persons trade in food; and
- (b) achieve the safety and suitability of food for sale; and
- (c) maintain confidence in New Zealand's food safety regime; and
- (d) provide for risk-based measures that—
  - (i) minimise and manage risks to public health; and
  - (ii) protect and promote public health; and
- (e) provide certainty for food businesses in relation to how the requirements of this Act will affect their activities; and
- (f) require persons who trade in food to take responsibility for the safety and suitability of that food.

### [Animal Products Act 1999](#)

The objective of the Act is to—

- (a) Minimise and manage risks to human or animal health arising from the production and processing of animal material and products by instituting measures that ensure so far as practicable that all traded animal products are fit for intended purpose; and
- (b) Facilitate the entry of animal material and products into overseas markets by providing the controls and mechanisms needed to give and to safeguard official assurances for entry into those markets

### [ACVM Act 1997](#)

The purpose of this Act is to—

- (a) prevent or manage risks associated with the use of agricultural compounds, being—
  - (a) risks to public health; and (i) risks to trade in primary produce; and
  - (ii) risks to animal welfare; and
  - (iii) risks to agricultural security;
- (b) ensure that the use of agricultural compounds does not result in breaches of domestic food residue standards;
- (c) ensure the provision of sufficient consumer information about agricultural compounds.

### [Biosecurity Act 1993](#)

Law relating to the exclusion, eradication, and effective management of pests and unwanted organisms, including those already established here.

### [Animal Welfare Act 1999](#)

Establishes fundamental obligations relating to the care of animals. These obligations are written in general terms in the [Animal Welfare Act 1999](#) with detail found in the [Animal Welfare \(Care and Procedures\) Regulations 2018](#) and the [Code of Welfare: Commercial Slaughter 2018](#).

Refer to the following web links on [The Animal Welfare System](#), [Animal Welfare](#) and the [Overview of Animal Welfare](#).

<sup>1</sup> Food Act 2014 commenced on 1 March 2016. There is a 3 year transition period for existing business to move from operating under the Food Hygiene Regulations 1974 or a food safety programme to the requirements of the Food Act 2014.

<a href="#">Food Act 2014 cont.</a>	<a href="#">Animal Products Act cont.</a>	<a href="#">ACVM Act cont.</a>	<a href="#">Biosecurity Act cont.</a>	<a href="#">Animal Welfare Act cont.</a>
<b>Part 2 – Risk-based measures</b>	<b>Part 2 – Risk Management Programmes (RMPs)</b>	<b>Part 2 – Importation, manufacture and sale of agricultural compounds <sup>1</sup></b>	<b>Part 3 – Importation of risk goods<sup>2</sup></b>	<b>Part 5 – Codes of Welfare</b>
Food sectors are classified into three classes of risk. Higher risk food businesses must operate under a Food Control Plan, medium to lower risk food businesses under a National Programme and very low risk businesses under neither (but still need to make safe and suitable food).	An RMP is a programme designed to identify, control, manage, eliminate or minimise hazards and other risks during processing of animal material & products	Agricultural Compounds and Veterinary Medicines (Exemptions and Prohibited Substances) Regulations 2011 Requirements for exempt Oral Nutritional compounds – Pet Food. Animal Feeds Classification of Substances as Generally Recognised as Safe (GRAS)	22: Import Health Standards 39: Transitional Facilities	Includes:- • <a href="#">Commercial Slaughter</a>
<b>Part 3 – Food imported for purpose of sale</b>	<b>Part 3 – Regulated Control Schemes</b>			
This Part covers requirements for imported foods.	RCSs are special regulatory regimes to provide for cases where it is inappropriate or impractical to manage risk factors under an RMP or where special provision is required for the purposes of overseas market access requirement			
<b>Part 4 – Provisions relating to recognition, territorial authorities, administration, and enforcement</b>	<b>Part 4 – Animal Product Standards and Specifications</b>			
This Part includes directions by chief executive, for example recall.	This part provides for the setting of standards and specifications that must be met by any animal product intended for trade or processed for reward before it may be considered fit for intended purpose.			
<b>Part 5 – Miscellaneous provisions</b>	<b>Part 5 – Export of Animal Material and Products</b>			
This Part includes provisions for regulations and standards, including Food Standards.	The purpose of this Part is to facilitate export by providing for the specifying of requirements that must be met for products to be eligible for export; providing for requirements and systems intended to safeguard official assurances & providing for the registration of exporters.			
	<b>Part 8 – Recognised Agencies and Persons</b>			
	The purpose of this Part is to provide for the recognition of agencies and persons to perform specialist functions and activities including verification under the Act.
